

Pramod Ghodke

React.js Developer

Pune, Maharashtra — +91 7249456632 — pramodghodke110@gmail.com

Professional Summary

Frontend Engineer with 3.5+ years of experience developing scalable, user-focused web applications using React.js and modern frontend technologies. Experienced in building responsive, performance-oriented interfaces with strong focus on usability, component architecture, workflow optimization, and clean engineering practices. Skilled in mentoring junior developers, collaborating across teams, and delivering business-critical solutions within timelines. Possesses working knowledge of Node.js, Express.js, and MongoDB, enabling effective full-stack collaboration and system understanding.

Technical Skills

Primary Skills

React.js | JavaScript (ES6+) | TypeScript | HTML5 | CSS3 | Tailwind CSS | Bootstrap | Redux | Zustand | TanStack Query | shadcn/ui

Backend & APIs

Node.js | Express.js | MongoDB | REST APIs | Socket.IO

Tools & Practices

Git | GitHub | Component-driven Architecture | API Integration | Responsive UI Development | Performance Optimization | Reusable UI Systems | AI-assisted Development Workflows

Experience

Foxberry Technologies Pvt Ltd

Nov 2022 – Present

React.js Developer

- Developed scalable frontend applications using React.js and modern frontend technologies for enterprise and operational platforms.
- Mentored junior developers, reviewed implementations, and built reusable UI systems with focus on maintainable frontend practices.
- Collaborated closely with backend teams, stakeholders, and designers to deliver responsive, performance-oriented, and business-focused user experiences.
- Contributed proactively to workflow improvements, UX enhancements, and product-level engineering decisions.

Projects

PCMC Garden E-Ticketing Platform

Developed and helped drive digitization initiatives for PCMC garden ticketing operations through a QR-based digital booking and entry management platform.

- Proposed digital ticketing workflow concepts to reduce physical queue dependency and improve citizen experience.
- Developed responsive booking workflows with QR-enabled tickets and integrated Easebuzz payment gateway workflows for seamless online booking.
- Built real-time ticket validation systems and operational dashboards for booking monitoring, collection tracking, challan generation, and operational transparency.

- Contributed to successful trial executions with smoother entry handling and reduced manual verification effort.

Tech Stack: React.js, Tailwind CSS, REST APIs, Easebuzz Payment Gateway, QR Validation System

PCMC MIS Education Dashboard

Developed and optimized an education management dashboard focused on reducing operational effort and improving workflow efficiency.

- Redesigned traditional attendance workflows with fast and dynamic attendance interfaces using optimized React rendering patterns.
- Reduced attendance management effort significantly through event delegation techniques and modern UI workflows.
- Developed modules for onboarding, attendance management, staff tracking, inventory monitoring, and institutional analytics.
- Built low cognitive-load dashboards optimized for teachers, headmasters, and operational users with improved usability and faster workflows.

Tech Stack: React.js, JavaScript, Tailwind CSS, REST APIs, Dashboard Architecture

Preet AI Platform

Developed a scalable PR workflow and collaboration platform with modern enterprise UX and real-time workflow management.

- Developed real-time workflow synchronization features using Socket.IO for instant collaboration and status updates.
- Designed Outlook-style split-layout UI using nested routing to reduce navigation friction and improve operational efficiency.
- Built reusable component architecture, responsive dashboards, advanced filtering systems, and role-based workflow management.
- Contributed to frontend architecture planning, workflow optimization, and UX improvements for scalable operational workflows.

Tech Stack: React.js, TypeScript, Tailwind CSS, React Router, Socket.IO, REST APIs

Education

Bachelor of Engineering (Information Technology)

Jun 2018 – Apr 2021

NBN Sinhgad College of Engineering, Pune
